

Online Letters and Sounds Training Programme Information for English Hubs

We are delighted to announce the launch of the online Letters and Sounds training programme!

The online accredited Letters and Sounds training consists of five online video training modules. Included in each module are reading materials and questions to check for understanding. The package for wave 2 Partner Schools includes the guidance and facilitation of an accredited Letters and Sounds trained trainer.

Module 1. Key features of effective Letters and Sounds practice

Module 2. Setting expectations

Module 3. Teaching sequence and consistency of approach

Module 4. Phonics: the only route to decoding and application to reading

Module 5. Assessment and the lowest 20%

The training is designed so that each member of staff can undertake the training at a time convenient to their current timetable. The whole programme will take approximately four hours to complete. It can be completed flexibly, one module at a time. Staff can complete the training independently, or in small groups in school. It is recommended that every member of staff undertakes this training

Once the assessments have been completed, the school is provided with a collated evaluation of the submitted responses. The accredited trainer will analyse the collated evaluation to design a bespoke follow up training session for groups of staff to consolidate aspects of the training and address any misconceptions.

A team of 45 trainers, who have successfully gained accreditation to deliver the Letters and Sounds programme, have the capacity to facilitate training for all Wave 2 Partner Schools who use the Letters and Sounds systematic synthetic phonics programme over the next 3 months. The full online package for Wave 2 partner schools will cost £650 per school. English Hubs will also be able to access the training modules for Wave 1 Partner Schools and English Hub Literacy Specialist teams.
